## KERN

#### Wheelchair Platform Scale KERN MWB

# Compact wheelchair platform scale with two integrated access ramps for easy access

#### **Features**

- Especially suitable for weighing patients in wheelchairs because of the low-profile platform which can be approached from either side
- In the large steel weighing plate also makes it ideal for weighing obese patients
- Also ideal for rapid weighing of, for example, laundry carts, container trolleys, roller containers, etc.
- Secure and non-slip positioning with heightadjustable rubber feet
- 2 Level indicator to level the balance precisely
- Hold function: While weighing patients that are unable to sit or stand still, a mean average weight value is determined. This allows for sufficient time to attend to the patient, and then get a weight reading
- BMI function to determine underweight/normal weight/surplus weight
- In the scale can easily be transported using the two rollers and two handles and does not require much storage space
- Wall mount for display device, standard
- Protective working cover included with delivery

#### Technical data

- · Large backlit LCD display, digit height 25 mm
- Dimensions weighing surface W×D 800×800 mm
- Dimensions of display device W×D×H 200×130×60 mm
- Cable length of display device approx. 3 m
- Overall dimensions W×D×H 1066×1000×80 mm
- Batteries included,  $6\times1.5$  V AA, operating time up to 40 h
- Net weight approx. 60 kg

#### Accessories

- Protective working cover over the display device, scope of delivery: 5 items, KERN MBC-A06S05
- Cleaning cloths, alcohol-free cloths for disinfectant wiping, quick acting, based on modern quaternary ammonium compounds and effective against papova viruses. Particularly gentle on materials, and very well suited for disinfecting products which are sensitive to alcohol. Fulfill the legal requirements for occupational safety in accordance with TRGS 525/540. Packaging contents 100 pcs., size 20×22 cm per cloth, KERN MYC-01

Model	Weighing range	Readout	
KERN	[Max] kg	[d] kg	
MWR 300K-1	300	0.1	

**Adjusting program CAL** 

For quick setting up of the balance's accuracy. External adjusting weight required

#### Memory

Balance memory capacity, e.g. for article data, weighing data, tare weights, PLU etc.

#### Data interface RS-232

To connect the balance to a printer, PC or network

#### RS-485 data interface

To connect the balance to a printer, PC or other peripherals. Suitable for data transfer over large distances. Network in bus topology is possible

#### **USB** data interface

To connect the balance to a printer, PC or other peripherals

#### Bluetooth\* data interface

To transfer data from the balance to a printer, PC or other peripherals

#### WIFI data interface

To transfer data from the balance to a printer, PC or other peripherals

#### Control outputs (optocoupler, digital I/O)

To connect relays, signal lamps, valves, etc.

#### **Statistics**

sing the saved values, the device calculates statistical data, such as average value, standard deviation etc.

#### **PC Software**

to transfer the measurements from the device to

## **GLP/ISO** log internal

The balance displays weight, date and time, independent

#### GLP/ISO log

With date and time. Only with KERN printers

#### **KERN Communication** Protocol (KCP)

It is a standardized interface command set for KERN balances and other instruments, which allows retrieving and controlling all relevant parameters and functions of the device. KERN devices featuring KCP are thus easily integrated with computers, industrial controllers and other digital systems

#### Piece counting

Reference quantities selectable. Display can be switched from piece to

#### Totalising level A

The weights of similar items can be added together and the total can be printed out

#### Weighing units

Can be switched to e.g. nonmetric units. Please refer to website for more details

## Weighing with tolerance range (Check weighing)

Upper and lower limiting can be programmed individually, e.g. for sorting and dosing. The process is supported by an audible or visual signal, see the relevant model

#### **ZERO**

Resets the display to "0"

#### **Hold function**

When patients do not stand, sit or lie completely still, a stable weight is calculated using an average weight

#### Hold function

When the weighing conditions are unstable, a stable weight is calculated as an average value

#### Protection against dust and water splashes IPxx

The type of protection is shown in the pictogram cf. DIN EN 60529:2000-09, IEC0529:1989+A1:1999 +A2:2013

## Suspended weighing

Load support with hook on the underside of the balance

#### **Battery operation**

Ready for battery operation. The battery type is specified for each device

#### **Battery operation** rechargeable

Prepared for a rechargeable battery operation

#### Rechargeable battery pack

Rechargeable set

## Universal plug-in power supply with universal input and

optional input socket adapters for A) EU, CH B) EU, CH, GB, US C) EU, CH, GB, US, AUS

## Plug-in power supply

230V/50Hz in standard version for EU. On request GB, AUS or US version available

#### Integrated power supply unit

Integrated in balance. 230V/50Hz standard EU. More standards e.g. GB, AUS or US on request

#### Weighing principle Strain gauges

Electrical resistor on an elastic deforming body

#### Peak hold function

capturing a peak value within a measuring process

#### **Push and Pull**

the measuring device can capture tension and compression forces

## Integrated scale

In the eyepiece

### 360° rotatable microscope head

## Monocular Microscope

For the inspection with one eye

#### Binocular Microscope For the inspection with both eyes

## Trinocular Microscope

For the inspection with both eyes and the additional option for the connection of a camera

### Abbe Condenser

With high numerical aperture for the concentration and the focusing of light

## Halogen illumination

For pictures bright and rich in contrast

#### LED illumination

Cold, energy-saving and especially long-life illumination

#### Fluorescence illumination for compound microscopes

With 100 W mercury lamp and filter

#### **Fluorescence** illumination for compound microscopes With 3W LED illumination

Phase contrast unit 0 For a higher contrast

indirect illumination

and filter

#### Darkfield condenser/unit For a higher contrast due to

Polarising unit ₩ To polarise the light POLAR

## Infinity system

Infinity corrected optical system

#### Automatic temperature compensation

For measurements between 10 °C and 30 °C

#### Conformity assessment The time required for

conformity assessment is specified in the pictogram

### Package shipment

The time required for internal shipping preparations is shown in days in the pictogram

## Pallet shipment

The time required for internal shipping preparations is shown in days in the pictogram
